Good Food People

The Good Food Brotherhood team behind Watercress is committed to healthy and delicious food. With a never-ending passion for quality & traceability we are proud to support our extended family of local organic farmers & artisan purveyors. These are our good food people with whom we share our vision of sustainability, kindness and community.

The Farmer

Our vegetables come from small harvest farms around Baturiti region in central Bali, where our organic gardens thrive in the rich volcanic soil and cool climate.

The Fisherman

The Freshest seafood comes direct from our neighbor Made, whose family has been catching fish, king prawns and seasonal lobster off the coast of Canggu for three generations.

The Butcher

Our Aussie butcher imports quality meats then expertly prepare all our cold cuts, artisan sausages and steaks. Organic, probiotic chickens and eggs are sourced from East Java.

The Baker

Watercress is well known for its great desserts. We work closely with our local French pastry chef to curate exclusive and delicious treats using only the finest ingredients. **Go ahead indulge a little.**
