10 Reason why you should drink Wine

1. Controls Your Cholesterol

Studies have confirmed that Red Wine raises level of HDL or good Cholesterol, which helps unclog your arteries, It is Recommended to have two glasses with a meal everyday

2. Support Better Blood Circulation

Light - Red wines help expand blood vessels thus helping circulation, Recommended to have one glass of wine with each meal, maximum three time a day.

3. Prevent Heart Disease

Red Wine is rich in an antioxidant called resveratrol that may help protect the lining of blood vessels in your heart.

4. Is Good For Stress Relief

If you are constantly stressed, a glass of wine may be of help, you should take a break and have a glass of wine slowly and enjoy every sip.

5. Can Help Prevent Colds

Traditional medicine has said that drinking wine can prevent common cold because it can help kill viruses and bacteria.

6. Will Help Cure a Sore Throat

Take a glass of wine and let it glide over your tongue and swallow slowly. This is believed to help cure sore throat.

7. Helps Prevent Anemia

Moderate drinking of red wine can help prevent an event cure anemia. It is recommended to have a glass of wine with your lunch everyday and a glass of wine every evening.

8. Supports Your Weight Loss

Alcohol and weight loss are considered enemies, But studies have shown that people who drink wine daily actually have a lower body mass, narrower waists, and less abdominal fat than people who drink liqueur.

9. Help Build Better Bone

The study has shown a connection between moderate wine consumption and increased bone mineral destiny. The positive effect of wine on the health of bone has been proven for women, but there is research suggesting that wine can have beneficial effects on men's bone too.

10. Will Help You Stay Younger

Wine drinkers have been found to have up to 40% more antioxidants in their bodies to non wine - drinkers. Antioxidants 'catch' free radical and prevent cell aging.
