AUSTRALIAN WAGYU

There's a whole new level of richness to these steaks, with softness approaching stick-of-butter levels. Succulent and juicy, that gorgeous web of creamy intramuscular fat – the marbling – which characterises wagyu beef spreads more and more throughout the meat, giving it a melt-in-your-mouth texture that you'll never forget.

USDA PRIME BEEF

Prime beef is produced from young, well-fed steers which features a high degree of marbling. Humanely-raised cattle live lives of lower stress, happier days, and better health than factory-farmed animals. Healthier cows lead to healthier meats, and healthier meats for more nutritious meal.
